

TITLE OF THE PAPER

Author Name

University, other institution **or** Statistical office
e-mail: author@university.edu **or** author@office.gov

Abstract

A short abstract is nice at the beginning of the text to describe the contents and main results of the paper.

1 Introduction or Section title

This is the Word template of a contributed paper for the 6th Summer School in Montenegro in 2011. Note that the section titles are written in 14 point bold font.

2 Section title

2.1 Subtitle

The sections may (but do not have to) consist of several subsections.

The tables should have titles. The equation numbers should be given at the right-hand side:

$$Y = x^2 \tag{1}$$

The references in the text should be given according to the style: We consider the well-known relationship (Author 1995, p. 2) between variables. The equation (1) has also been discussed by Anotherauthor (1986).

References at the end of the paper should be listed in alphabetical order of surnames.

References

Anotherauthor, A. (1986) An important article. *A Journal of Statistics and Probability*, **10**, 945-970.

Bookwriter, A. B. (1980) *Title of the Book*. Publisher, City.

Bookwriter A. B. and Author, A. (1999) Another important paper. In: *Proceedings of the 4th Conference in Statistical Sciences*, (ed. E. Theeditor), Publisher, City, 159-167.
